

LBY LED[®]
first choice in LED lighting

Your linear lighting
Solution

LED Aluminium Profiles are **the professional's choice**

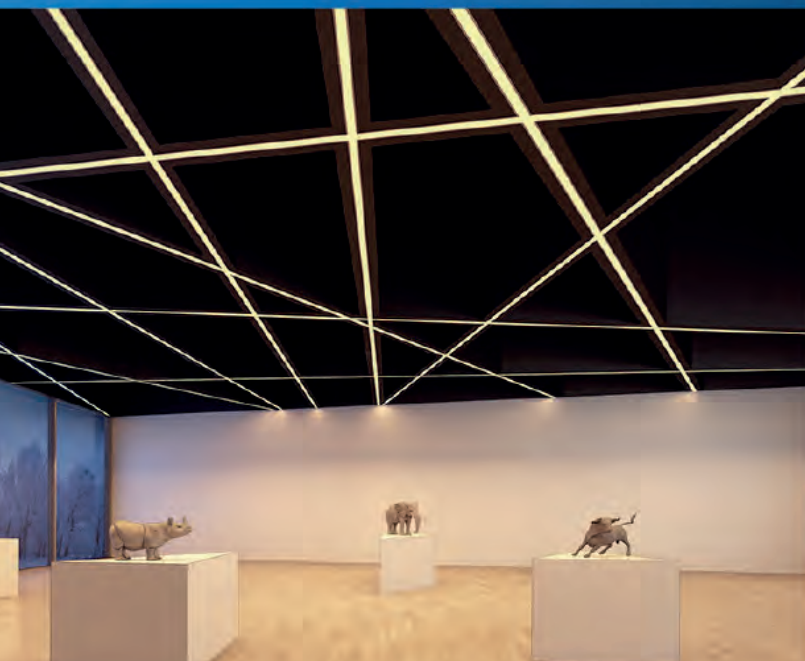

for specifying and installing LED linear lighting

No professional lighting project is complete without the use of LED Aluminium Profiles. Conceptualised to be an excellent aesthetic tool for all lighting design applications, Aluminium Profiles can be recessed into floors, ceilings, tiles and walkways, used to illuminate staircases or transformed into contemporary linear lighting fixtures.

LED Aluminium Profiles are available in a wide range of shapes and sizes. They create attractive linear lighting and outlining, as well as providing heat management and a protective housing for LED strips. They are simple to use, practical and elegant.

The possibilities are endless.

Applications

- Linear lighting and outlining
- Ceilings, floors and walls
- Under shelves and stairs
- Furniture, cabinets and kiosks
- Surface mounted
- Recess mounted
- Suspended

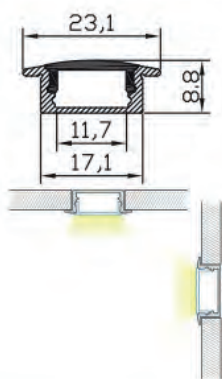

Features

- Easy mounting
- Excellent heat management
- Even light distribution
- High brightness and high efficiency
- Long lifespan and low maintenance
- Available in standard lengths 1, 2, 3 and 4 meters
- Mix and match accessories for flexible application
- Indoor and outdoor applications
